4. Introduction of Korbex

4.1 Cryptocurrency Trading Platform

Korbex delivers several key features to provide the most suitable solution to traders and users. Also, Korbex offers industry competitive rate of 0.1% per trading volume for general users and fixed monthly trading fee option, Korbex Prime, for professionals, enterprises, and institutions. Users can freely trade cryptocurrencies without the burden of service charge at the best price options.

4.2 KORBEX Features

Korbex's underlying trading platform and its order matching engine are developed to provide several inimitable features that other digital asset exchanges cannot offer. Our battle-proven trading platform ensures all but not limited to features listed below.

4.2.1 Advanced Trading Technology

Korbex is equipped with a high performance order matching engine which is capable of handling over hundred thousand orders per second. Korbex also supports various order types to deliver advanced trading experiences. Features like trading on margin and futures will be supported in near future.

4.2.2 Security, Security, Security

We cannot stress enough the importance of security of our assets. We have carefully thought out every inch of Korbex exchange from source code to infrastructure to protect assets from malicious activities and security threats. All of our wallets use industry standards of multi-sig (P2SH) for maximum security protection and HD (BIP32) for financial privacy. Korbex also stores 90% of assets in offline multi-sig vault utilizing hardware wallets and air-gapped computers.

4.2.3 Proof of Reserves Audits

All of our digital assets are visible to users with crystal clear transparency. We are implementing our audit process based on Greg Maxwell's proposal for exchanges/wallets to prove the reserves.

4.2.4 KYC and AML Compliance

Korbex requires KYC and AML to comply with government guidance on regulatory compliance. Korbex provides an intuitive and satisfying user experience, and it only takes just minutes to complete the KYC process.

4.2.5 Various Currency Support

Korbex is in the process of getting a HK MSO License to handle exchanges between fiat and cryptocurrencies. Upon approval, traders are able to choose among various fiat currencies to make deposits and withdrawals.

4.2.6 Hybrid (Centralized/Decentralized) Exchange

Korbex is a centralized digital asset exchange for the time being. Though users will be able to exchange a variety of cryptocurrencies including KBX through the Korbex platform, we will incorporate decentralized cryptocurrency exchange by 4Q, 2018. As the consensus algorithm of blockchain technology advances, decentralized high frequency trading and real-time order book matching will become feasible. The Korbex will provide both decentralized and centralized exchanges in tandem to maximize liquidity.

4.3 Business Model

Source	Description
Exchange Fee	Korbex charges 0.1% per each exchange transactions.
Withdrawal Fee	1-3% for fiat currency withdrawal. Small charges for cryptocurrency withdrawal.

9. Conclusion

Korbex, along with KBX, aims to make a global cryptocurrency exchange that is capable of true real-time, high-frequency trading. The profits of our services will be used to buy back our coins on the marketplace. The increase of the profits will drive growth of the coin exchange rate, increasing the value of coin holders' tokens. Users on Korbex platform can maximize the value of their assets through automatic, real-time asset management system, Korbex AI Trader.

Above all, Korbex aims to provide a transparent, honest, and ethical service. Korbex will comply with laws and regulations in the jurisdictions it serves. Korbex will monitor and record all suspicious trading activity to prevent fraud and depreciation of traders' assets.

10. Legal

10.1 General information

The Korbex token does not have the legal qualification of a security since it does not give any rights to dividends or interests. The sale of Korbex tokens is final and non-refundable. Korbex tokens are not shares and do not give any right to participate in the general meeting of Korbex Limited. Korbex tokens cannot have a performance or a particular value outside the Korbex Platform. Korbex tokens shall therefore not be used or purchased for speculative or investment purposes. The purchaser of Korbex tokens is aware that national securities laws, which ensure that participants are sold investments that include all the proper disclosures and are subject to regulatory scrutiny for the participants' protection, are not applicable. Anyone purchasing Korbex tokens expressly acknowledges and represents that she/he has carefully reviewed this white paper and fully understands the risks, costs, and benefits associated with the purchase of KBX.

10.2 Knowledge required

The purchaser of Korbex tokens undertakes that she/he understands and has significant experience of cryptocurrencies, blockchain systems and services, and that she/he fully understands the risks associated with the crowdsale as well as the mechanism related to the use of cryptocurrencies (incl. storage). Korbex shall not be responsible for any loss of Korbex tokens or situations making it impossible to access Korbex tokens, which may result from any

actions or omissions of the user or any person undertaking to acquire Korbex tokens, as well as in case of hacker attacks.

10.3 Risks

Acquiring Korbex tokens and storing them involves various risks, in particular, the risk that Korbex Limited may not be able to launch its operations and develop its exchange and provide the services promised. Therefore, and prior to acquiring Korbex tokens, any user should carefully consider the risks, costs, and benefits of acquiring Korbex tokens in the context of the crowdsale and, if necessary, obtain any independent advice in this regard. Any interested person who is not in the position to accept or to understand the risks associated with the activity (incl. the risks related to the non-development of the Korbex platform) or any other risks as indicated in the Terms & Conditions of the crowdsale should not acquire Korbex tokens.

10.4 Important disclaimer

This white paper shall not and cannot be considered as an invitation to enter into an investment. It does not constitute or relate in any way nor should it be considered as an offering of securities in any jurisdiction. This white paper does not include or contain any information or indication that might be considered as a recommendation or that might be used as a basis for any investment decision. Korbex tokens are just utility tokens which can be used only on the Korbex platform and are not intended to be used as an investment. The offering of Korbex tokens on a trading platform is done in order to allow the use of the Korbex platform and not for speculative purposes. The offering of Korbex tokens on a trading platform does not change the legal qualification of the tokens, which remain a simple means for the use of the Korbex platform and are not a security. Korbex Limited is not to be considered as an advisor in any legal, tax or financial matters. Any information in the white paper is provided for general information purposes only and Korbex Limited does not provide any warranty as to the accuracy and completeness of this information. Korbex Limited is not a financial intermediary according to Swiss law and is not required to obtain any authorization for Anti Money Laundering purposes. Acquiring Korbex tokens shall not grant any right or influence over Korbex Limited's organization and governance to the Purchasers. Regulatory authorities are carefully scrutinizing businesses and operations associated to cryptocurrencies in the world. In that respect, regulatory measures, investigations or actions may impact Korbex Limited's business and even limit or prevent it from developing its operations in the future. Any person undertaking to acquire Korbex tokens must be aware of the Korbex Limited business model, the white paper or terms and conditions may change or need to be modified because of new regulatory and compliance requirements from any applicable laws in any jurisdictions. In such a case, purchasers and anyone undertaking to acquire Korbex tokens acknowledge and understand that neither Korbex Limited nor any of its affiliates shall be held liable for any direct or indirect loss or damage caused by such

changes. Korbex Limited will do its utmost to launch its operations and develop the Korbex platform. Anyone undertaking to acquire Korbex tokens acknowledges and understands that Korbex Limited does not provide any guarantee that it will manage to achieve it. They acknowledge and understand therefore that Korbex Limited (incl. its bodies and employees) assumes no liability or responsibility for any loss or damage that would result from or relate to the incapacity to use Korbex tokens, except in case of intentional misconduct or gross negligence.

10.5 Representation and warranties

By participating in the crowdsale, the purchaser agrees to the above and in particular, they represent and warrant that they: have read carefully the terms and conditions attached to the white paper; agree to their full contents and accept to be legally bound by them; are authorized and have full power to purchase Korbex tokens according to the laws that apply in their jurisdiction of domicile; are neither a US, Mainland China, Singapore citizen or resident; live in a jurisdiction which allows Korbex Limited to sell Korbex tokens through a crowdsale without requiring any local authorization; are familiar with all related regulations in the kick start jurisdiction in which they are based and that purchasing cryptographic tokens in that jurisdiction is not prohibited, restricted or subject to additional conditions of any kind; will not use the crowdsale for any illegal activity, including but not limited to money laundering and the financing of terrorism; have sufficient knowledge about the nature of the cryptographic tokens and have significant experience with, and functional understanding of, the usage and intricacies of dealing with cryptographic tokens and currencies and blockchain-based systems and services; purchase Korbex tokens because they wish to have access to the Korbex platform; are not purchasing Korbex tokens for the purpose of speculative investment or usage.

10.6 Governing law and arbitration

Any dispute, controversy or claim arising out of or relating to this crowdsale, including the validity, invalidity, breach or termination thereof, shall be settled by arbitration in Hong Kong under the HKIAC International Arbitration Centre Administered Arbitration Rules in force when the Notice of Arbitration is submitted in accordance with these Rules. The number of arbitrators shall be one. The arbitration proceedings shall be conducted in English.
